

Coverage policy for non-participation due to health issues or injuries

When registering, all members can optionally request coverage (12.00 euros/per person) to protect against their possible non-participation in the sporting event due to health issues or injuries. The refund request can be made by sending a communication to the Organising Office by email (fitness@sportfelix.it) within 48 hours before the starting of the event, attaching the medical documentation certifying the condition of injury or illness with its prognosis.

The refund will be calculated on the payment made according to the following method: adding together the amount of the payment relating to the fee (A) and the result of the ratio (B) between the payment referring only to the place in which the applicant is staying and the number of beds relating to the same accommodation. The insurance must be bought at the same time at the confirmation of the registration. It should be understood that extra services requested or transport costs will not be refunded. Refund requests which arrive after 48 hours before the first day of the event will not be accepted. In addition, refund requests in which the prognosis does not cover the entire event will not be accepted.
